

International Dot Day

Decorate the turtle shell using pointillism, while we “connect the dots” on how we can make our mark on the earth!

All 7 types of sea turtles are endangered and need our help

Limit plastic bags: Turtles accidentally eat plastic, thinking it is food

Avoid straws: In America alone, 500 million straws are used every day.

Tell everyone about styrofoam: It is not able to be recycled and its chemicals are terrible for animals and humans

Find something you are passionate about and **TAKE ACTION**

The United Nations created the Sustainable Development Goals to help us all make the world the best it can be

Make Your Mark on the World
